Aishwarya Sanjeev Bongale

Ottawa • +14373293194 • aishwaryabongale1@gmail.com • linkedin.com/in/aishwarya-bongale

Passionate Front End Developer with 7+ years of experience crafting dynamic and responsive interfaces. Proficient in JavaScript, React.js, Node.js, HTML, and CSS, with strong design and UX understanding. Experienced in cross-functional collaboration for delivering high-quality software solutions. Accomplished software engineer/developer specializing in on-site project management and technical leadership, ensuring team success and high-quality deliverables. Known for fostering collaboration, managing resources, and offering technical expertise.

WORK EXPERIENCE

LTIMindtree • **Toronto, Ontario, Canada** • **11/2022 - Present**
Software Engineering Specialist - Level 3
Lead Full Stack Engineer - Level 3
Mindtree • **Tornoto, Ontario, Canada** • **07/2016 - 10/2022**
Module Lead - Level 3
Senior Software Engineer - Level 2
Software Engineer - Level 1

SKILLS

- Agile Development
- Apollo Studio
- Cascading Style Sheets (CSS)
- Client Relations
- Code Review
- Confluence
- Cross-team Collaboration
- Debugging
- Dynatrace
- GIT
- Glassbox
- GraphQL
- Handlebars
- HTML
- Javascript
- Jenkins
- JIRA
- Node.js
- OSE
- Postman
- Problem Solving
- React
- Redux
- Release Management
- SCSS
- Service now
- Splunk
- Technical Documentation
- Typescript
- Web Development

EDUCATION

Bachelor of Engineering - BE in Computer Science
KLS Gogte Institute Of Technology • India • 06/2012 - 06/2016

PROJECTS

Leading Travel and Hospitality Client • 12/2021 - 04/2024

- Played a pivotal role in facilitating different brand mergers that were instrumental for client in terms of revenue generation and market expansion. Managed the seamless integration of millions of users as part of the merger process, ensuring minimal disruption and maximizing client value.
- Addressed critical production issue with significant ramifications, such as widespread impact on sign-in functionality, user experience degradation, design inconsistencies, and resolution of legal content/design challenges
- Orchestrated all release management activities, from documentation and ticket creation to deployments, ensuring smooth and timely project deliveries.
- Functioned as an onsite lead, fostering close collaboration with clients and providing leadership to offshore development teams, resulting in successful project outcomes.
- Provided accurate estimations and timelines for projects up to $5M, aiding resource planning and prioritization
- Successfully delivered key milestones on time for two distinct projects at the same time, demonstrating strong project management and execution skills.

Hospitality - Property Portal and Revenue Management • 01/2021 - 03/2022

- Gathered business requirements from stakeholders and documented them for future reference.
- Created use case diagrams and technical documents outlining workflows and architecture. Developed prototypes and obtained approval from clients.
- Conducted gap analysis for both functional and non-functional requirements.
- Upgraded 17 existing applets using ReactJS for front end and Restful Services.
- Analyzed, coded, and unit tested using ReactJS and Restful Services, ensuring adherence to best practices.
- Utilized Sonar for static code analysis to maintain code quality
- Coordinated with various teams, including IT, Business, Helpdesk, and third parties.

Internal Project - POCs • 05/2020 - 12/2020

- Embraced emerging technologies, leading React and Redux js Proof of Concept (POC) initiatives.
- Contributed to full-stack development, applying expertise across application layers.
- Oversaw Node.js upgrade projects, ensuring security and current technology standards.

Leading travel and hospitality management • 08/2017 - 04/2020

Brief: Application built to provide functionalities. - Browse and book a Hotel
- Developed APIs for seamless integration, aligned with UI/UX design.
- Resolved critical production issues, including sign-in failures and credit card booking issues.
- Contributed to brand merger development, enhancing website value.
- Redeveloped pages to boost performance, aesthetics, and functionality.
- Managed urgent legal logo updates, meeting tight deadlines.
- Conducted peer-level code reviews, ensuring quality and consistency.
- Owned front-end project aspects, handling analysis, design, testing, and deployment.
- Addressed accessibility concerns, enhancing user experience for all.

Leading travel and hospitality management • 07/2016 - 07/2017

Brief: Developed and improved APIs for seamless integration across web and mobile platforms.
- Analyzed requirements, designed and implemented APIs, ensuring reliability and performance.
- Generated technical documents, guided development, and conducted unit testing.
- Participated in code reviews, collaborated with project management, and used testing tools for efficiency.
